<b>Type</b>		ROV operated Claw cutter.
<b>Part number</b>		4669-001
<b>Cutting diameter wire 500 bar</b>		1,5"
<b>Max hydraulic pressure</b>		500 bar (pressure intensifier optional)
<b>Weight</b>	<b>Air</b>	18 kg
	<b>Water</b>	15 kg
<b>Dimensions L-W-H</b>		757 - 270 - 218 mm

IKM Technology Universal Claw Cutter.

The claw Cutter is based on heavy duty industry cutter and modified for ROV operations. The tool is easy handled by ROV manipulator.

Standard system is made for cutting of metal bars and wires up to 1,5". Larger items can be cut depending on material.

With modified blades, the cutter is also able to cut ropes of 2 to 2-1/2" diameter. To be defined on order.

Available for sale and rental.
