	<b>Water</b>	31 kg	
<b>Hydraulic Connection Type</b>		JIC ½-20" Male	
<b>Max Pressure</b>		103 BAR	
<b>Working Pressure</b>		97 BAR	
<b>RPM</b>	<b>Flow</b>	304 RPM	57 LPM
<b>Torque At Working Pressure</b>		265 Nm	

The IKM Technology Double Cleaning Tool is designed for use by ROV and divers. The tool is easy handled by standard ROV manipulators.

This system is made for cleaning subsea surfaces and handles soft marine growth and to some extent hard marine growth.

With plastic brushes, the cleaning will not remove surface protection like paint nor cause damage to metal surfaces.

Available for sale and rental
